

I will be voting YES on the current ballot because:

I believe in the science behind this effort.

I believe Dalmatian Stone Disease is a problem in our breed that we can fix.

I believe the LUA Dalmatians are Dalmatians and should be recognized as such.

I believe we can make a difference for the breed we love.

I believe it is time for the Dalmatian Club of America to work as a team to forge ahead on this unique path and set precedence in the world of purebred dogs to resolve health issues in our breed.

I am a firm believer in opportunity and I know opportunity doesn't stay around for long.

I refuse to let fear get in my way of making a difference.

I will vote YES!
